

UWE New Campus Project Consultation - June 09

Comments form

Thank you for visiting the exhibition today.

UWE and the masterplanning team are keen to hear your views on these proposals. Please answer the following questions, then either post your completed form in the comments box provided or complete online (www.uwewnewcampus.com) or return to ABC, at the address below. Responses received by **Thursday 18 June** will be included in the summary feedback report . Any further responses will be considered by the masterplanning team as part of ongoing consultation.

Principles of Development (see board 02)

To achieve its vision and guide the work of the masterplanning team UWE has agreed on a number of key development principles.

Q1. Do you support these development principles?

Yes No Undecided / no opinion

Q2. Do these principles cover the right areas or would you like to add anything?

Yes No Undecided / no opinion

Please add any further comments:

Summary of Development Opportunities (see board 04)

In response to these development principles four main design elements have come out of the initial site analysis work and feedback from earlier consultation. These elements (marked A, B, C & D on the board) are informing the emerging design options.

Please say whether you agree with the following statements and add any further comments.

Q3a. A new focal heart (A) at the centre of the new campus could help to welcome visitors and make the University more open and attractive to the public.

Agree Disagree Undecided / no opinion

Q3b. A new direct north/south pedestrian route (B) through the core of the existing buildings could make it easier to move around and help create a more attractive environment.

Agree Disagree Undecided / no opinion

Q3c. A new east/west landscaped route, linking the existing bus stops with the former HP land, could help 'knit together' the existing and the new campus areas, improve pedestrian and cycle routes and create more attractive open/landscaped spaces.

Agree Disagree Undecided / no opinion

Q 3d. A new public entrance (D) for visitors could help create a new sense of identity and arrival for UWE and make the Campus more attractive and open to visitors.

Agree Disagree Undecided / no opinion

Please add any further comments:

Vehicle Entrances and Parking (see board 05)

There are two entrances serving the new campus. The existing main access off Coldharbour Road and the entrance into the former HP site from the Ring Road. The choice of which becomes the new formal/public entrance into the new campus will affect where visitor reception/facilities and car parks are located.

Q4. Which entrance should become the new formal/public way in to the new Campus and why?

Q5. Where should student/staff car parking be located?

- A) Spread around the site, close to particular buildings and facilities
Agree Disagree Undecided / no opinion
- B) at the periphery of the campus?
Agree Disagree Undecided / no opinion

Please add any further comments:

Rapid Transit (see board 06)

UWE is keen to encourage more use of public transport and to look at ways of managing down demand for car parking on site. South Gloucestershire Council is also considering options and routes for a **new rapid transport (RT) bus service** in the area.

Q 6. Which route do you think the RT should take through the new Campus and why?

- Option 1 Option 2 Undecided / no opinion

Please add any further comments:

Pedestrian links and cycle routes (see board 07)

The masterplan offers scope to improve pedestrian and cycle routes through the new Campus and also connections to the wider area.

Q 7 The proposed network of pedestrian and cycle routes could improve movement and connections and help to 'knit together' the two parts of the new campus. Do you agree?

- Yes No Undecided / no opinion

Q8 Are there any other pedestrian/cycle routes, not identified in the proposals, that could be created or enhanced to improve movement around the new Campus?

Please add any further comments:

Landscape and Recreation (see board 08)

Creating new landscape areas could make the new campus easier to move around, provide a more attractive environment and help make the University more welcoming and open to the public.

Q9. To help connect the two halves of the new Campus should the area between the former HP buildings and the Frenchay campus be: A) built on or B) transformed into a 'grand boulevard' and why?

- A. built on B. boulevard Undecided / no opinion

Please add any further comments:

Q10. Should the new focal heart to the Campus be a building or a landscaped plaza and why?

A) a prominent new building Yes No Undecided / no opinion
B) a landscaped plaza Yes No Undecided / no opinion

Please add any further comments:

Neighbouring Uses (see board 09)

UWE recognises the importance of considering the masterplan in the context of the wider community, especially with the new residential developments coming forward in the area and the current provision of community facilities and amenities nearby.

Q11. What additional facilities and amenities could UWE encourage other organisations to provide outside the Campus which might be of benefit to students/staff in the future?

Public Facilities (see board 10)

Q12. Are you aware that UWE already makes some facilities available to the public, such as the Sports Centre, Centre for Performing Arts, Library, meeting rooms and the nursery.

Yes No Undecided / no opinion

Q13. Could the new Campus have a greater role in the local area by providing more shared shops, services, amenities and community facilities?

Yes No Undecided / no opinion

Staff, students and stakeholders have already suggested a wide range of amenities, facilities and services which they would like to see on the campus, many of which could also be open to the public.

Please say whether you agree with the following suggestions and add any further comments.

Retail and leisure outlets - independent cafes, shops, pub, hairdresser etc.

Q13a. Do you agree? If not, what else should/should not be provided on Campus?

Sports facilities – swimming pool and football/playing pitches etc.

Q13b. Do you agree? If not, what else should/should not be provided on Campus?

Cultural facilities - a new Performing Arts Centre with exhibition space, Creative Media Centre and improved library facilities.

Q13c. Do you agree? If not, what else should/should not be provided on Campus

Community services – a post office, health care facilities, pharmacy, community meeting rooms etc.

Q13d. Do you agree? If not, what else should/should not be provided on Campus?

Improved facilities for student use only - a new Student Centre/Students Union with facilities open outside core hours.

Q13e. Do you agree? If not, what else should/should not be provided on Campus?

Q14. Where in principle should such shared public facilities/amenities be located and why?

- A. at the heart of the campus? Yes No Undecided / no opinion
- B. closer to the edges of the site? Yes No Undecided / no opinion

Please add any further comments:

Other comments

Q15. Do you have any other general comments you would like to make?
